facts in reference to John Irving, now in California, who claims to have been connected in the Nathan murder, are obtained from the chief of police of Hoboken: The chief states that on July 30, 1870, he arrested trying and Chas Carr at 37 Fordin reached Thursday. Yesterday morning and for which robbery he is now in Sing we received a telegram from Mr. Bird, Sing. Inving was admitted bail in \$2,000 dated at Dwight, 29th inst. It was sent in the first named burglary, and from the Dwight office at twenty-one forfaited his sureties. A few months minutes past 8 o'clock a. m., and read as afterwards Irving and four or five others committed a burglary in Brooklyn, when he was shot and captured by a night watchman, but escaped from jail by cutting through a partition, and lowering himself to the ground. The murder of Nathan was committed on the night of July 29, 1870, and Irving, as will be seen above, was arrested the day following in Hoboken, on another charge.

The police authorities of this city say it is not likely that they will make any effort to get possession of Irving, self-a cused murderer of Nathan, as it is not certain be could be convicted of any crime and they do not wish to incur a thousand dollars' useless expense. Eight weeks ago the chief of police of San Francisco telegraphed he had Irving in custody, and later Iriving himself informed Capt. Kennedy in a letter, that he would come immediately without the formality of a req. uisition, but the police will do nothing They say Irving had not the courage to commit a murder, and add that they befree passage to New York, where his wife and children are living.

THE RODMAN SWINDLE. New York, August 29 .- The excitement regarding the deficit in the Brooklyn city securities continues. Rodman was not arrested last night, and it was stated at a late hour this afternoon that he was to be arrested at once. The Eagle says editorially that Rodman has, for three years, been a known defalter. The public funds, as alleged, were kept in charge with public money, and to that time his first apparent defalcation was covered up. Every man is anxious to narrow the guilt here as concentrate it upon Rodman and give temperature on Saturday. other men who have been close'y connected with him, credit for intelligence of the meanest order. THE IRON TRADE. LONDON, August 29.—The Times has an editorial, the burthen of which is that one of the finest markets England ever possessed is being closed to her, and her disasters in this direction are not ended. The United States is competing successfully for the control of the iron trade in Canada, South America and the West Indies, That country contested for immense advantages, but has beaten England in spite of these. England cannot afford to be idle, and sleep away her time and waste her money while competing with thrifty, alive and intelligent nations.
